

**FOR IMMEDIATE RELEASE:**

**Global Medical Staffing Extends International Expertise  
to Georgia's Department of Public Health**

*Salt Lake City, Utah (April 7, 2009)* – GLOBAL MEDICAL STAFFING (GMS) announced it is bringing its highly sophisticated International expertise “home” to domestic hospitals, practices and other facilities in the state of Georgia. Today, GMS fulfilled requirements for providing locum tenens (temporary) physicians in state facilities. The announcement furthers the commitment by the Georgia Department of Public Health to promote and protect the health of its residents wherever they live, work, and play.

“We’re honored to be working with Georgia state facilities,” said Alan Lakomski COO of Global Medical Staffing. “I am certain we will exceed their expectations because we have the people, the experience and a dedication to providing highly qualified physicians.”

Lakomski added, “Global Medical has a resource pool of over 20,000 interested candidates for locum positions. Thousands have completed locum positions overseas, but many want to stick closer to home. Coordinating positions in stateside locations is beneficial to everyone.”

Lakomski then pointed to physician vetting. “Because patients are the ultimate beneficiaries of our service - and their welfare is paramount to physician placement – we have most exhaustive credentialing process in the industry.” Georgia State requires that locum agencies adhere to stringent

healthcare budgets. Global Medical has also been approved for similar contracts in Alaska, Hawaii, Idaho, Minnesota, Montana and Nevada.

**About Global Medical Staffing:**

Global Medical Staffing (GMS) [www.gmedical.com](http://www.gmedical.com) pioneered international medical staffing and is benchmark for all other international staffing groups. Since its inception in the early 1990's, GMS has placed thousands of doctors in temporary assignments to under-serviced communities in Australia and New Zealand, and is now applying its highly sophisticated expertise coordinating locum tenens assignments in the United States and its territories. GMS has a broad network of over 20,000 locum tenens physicians in primary care, psychology, surgery and numerous other specialties.

**About the Georgia Department of Public Health:**

The Georgia Department of Human Resources, Division of Public Health (DPH) <http://health.state.ga.us> is the lead agency entrusted by the people of the State of Georgia with the ultimate responsibility for the health of communities and the entire state's population. Charged with promoting and protecting the health of people in Georgia wherever they live, work, and play, the GDPH unites with individuals, families, and communities to improve their health and enhance their quality of life.
