

*Your Adventure Starts Here*

Life-Enriching Experiences Through Locum Tenens

 **Global Medical Staffing**

## *Leave the adventure to us; we'll leave the medicine to you*

Every locum tenens adventure is a story. Every story lets you see the world you live in—and the world you practice in—in new and different ways. Every story is about making a difference in peoples' lives, and in your own life. We offer interesting, rewarding locum tenens assignments that last from a few days, to a month, to a year or longer in locations throughout the United States, Canada, Australia, New Zealand, the Caribbean and beyond.

## *Nothing ventured, nothing gained*

Our assignments can take you from residency to practice, from full-time practice to part-time practice and from one practice to another. They also allow you to see how physicians in different practice settings, different cities, and even different countries deliver care.

**Our doctors love where we send them—97% rate the locations as good or excellent and 96% rate our service as good or excellent.**

We carefully screen practices and facilities in locations to match your skills, experience, interests, family situation and lifestyle; and we offer extensive assistance with credentialing, licensure and securing privileges. We also take care of your travel, housing, and local transportation, plus occurrence malpractice coverage (USA) or medical defense insurance with built-in tail coverage (International).

## *Our Safety Net*

We are the only locum tenens recruiting agency that offers doctors working in international assignments a safety net: In the extremely rare event that a practice materially misrepresents itself, we will work to rectify the situation. If we cannot remediate the conflict, we will offer you other locum options.

“My three daughters (ages 9, 6 and 1) fell in love with New Zealand: the hospitable and cheerful people, the brilliant natural scenery, the trees and the hills and the unimaginable night sky. The family adventure was truly a mesmerizing experience and Global Medical was the ideal partner in making this wonderful part of our lives come true.”

*Erik “Tobias” Wirén, MD (Stockholm, Sweden)*

“I’ve been chased by a hurricane, rattled by an earthquake and baked by 109-degree heat and I would not trade a minute of my locum tenens experiences. It’s indescribable. I expected to see kangaroos in Australia, but I didn’t expect to see them bounce in every night and chew on the golf course greens. Watching their lovely movements became a nightly ritual.

*Kathryn Starkey, MD (Pittsburgh, Pennsylvania, USA)*

“I absolutely love what I am doing. I spend one hundred percent of my time in patient contact: No writing notes, no billing, no bull. Every minute of my time is utilized seeing patients, doing what I became a doctor for.”

*Ujjay Kajla, MD (Worcester, Massachusetts, USA)*

“After finishing residency, it’s hard not to be comfortable with a work schedule that doesn’t include nights or weekends.”

*Benjamin Ross, MD (Dubuque, Iowa, USA)*

“I could go on and on about the incredible variety of scenery and experiences during our stints with Global Medical. We’ll be telling the stories of these foreign-places-turned-familiar to our kids and grandkids for years to come. To anyone considering a locum tenens adventure all I can say is do it.”

*William “Wim” LeMaire, MD (Miami, Florida, USA)*

*We’ve placed nearly 5,000 top-caliber doctors into positions around the globe and we’d love to work with you. Are you ready to start writing your own locum tenens story?*

*Go Far — Do Good*
